See overleaf for Conditions of issue of Certificate

Conditions of Issue of Odometer E-Certificate / Certificate of Verification

1. JEVIC Liability - The E-Certificate / Certificate is valid from the date of issue shown on the front of this certificate.

2. The Verification - Before issuing the Odometer E-Certificate / Certificate of Verification the motor vehicle with the Vehicle Identification Number (VIN) referred to on the front of this certificate has been subject to;

- Any available service records, stickers (present at the time of verification) and other information in or on the vehicle have been checked for consistency with the odometer reading.
- Analysis of Japanese commercial national database odometer records pertaining to the stated vehicle.
- Assessment whether the general condition of the vehicle is consistent with the odometer reading. It is not a check of the mechanical state of the vehicle.

The E-Certificate / Certificate is issued and verifies that the current odometer reading is consistent with all searched records.

The issuer of this E-Certificate / Certificate is not liable:

- If the information supplied from the national databases is incorrect.
- For the description, condition and value of the vehicle.
- Any event that occurs after the E-Certificate / Certificate is issued.

3. Claims - All Claims must be provided to the certificate issuer in writing and accompanied by the original issued Certificate.

A claimant must stipulate the evidence on which they are basing the claim with respect to the recorded odometer reading at the time of E-Certificate / Certificate issuance.

You may have other rights under the relevant consumer protection legislation.

4. Enquiries - All enquiries should be to the issuer of the certificate.
